

### Investments for the resilience of global energy infrastructure

KONČAR has opened a new transformer tank factory, reaffirming its commitment to innovation, development, and the creation of local value with global reach. The state-of-the-art facility, developed in cooperation with Siemens Energy, marks an important milestone at a time of intensive energy transition and unprecedented demand for equipment and solutions in the power transmission and distribution segment.

### Hydropower projects

We have signed a contract for the reconstruction of the Varaždin Hydropower Plant, one of the most important hydropower facilities in the Croatian electricity system. Once the reconstruction is completed, the plant's total capacity will increase to 110 MW, its annual production will grow by 6 percent, and its operational life will be extended by another half-century.
